

BENEFITS OF THE CONNECTOR PROGRAM

for Connectees

COMMUNITY

The Connector Program helps with further integration into a person's new community. With a stronger network, it makes it easier to stay in the new home and put down roots too!

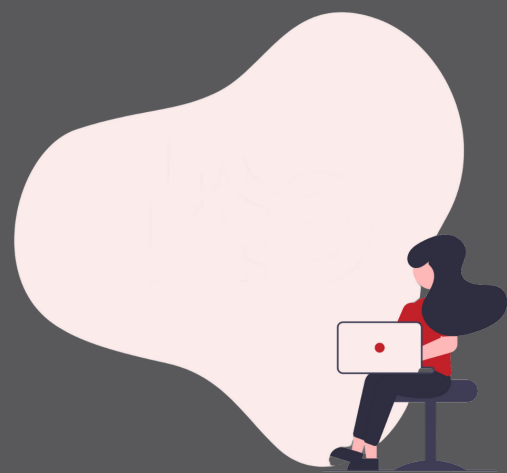

ADVICE

Connectees are given helpful advice on their job search in the community, information on their sector, opportunities that align with their skills and experience, as well as suggestions on how to break into the job market.

NETWORK

The Connector Program helps Connectees intentionally network with people who are well connected in their industry. Allowing for targeted growth of professional contacts in their sector of choice.

INFORMATION

Meeting professionals in their sector of interest allows Connectees to uncover information not available through regular channels. They learn about the hidden job market, events, activities, and projects they otherwise would not have known about.

BENEFITS OF THE CONNECTOR PROGRAM

for Connectors

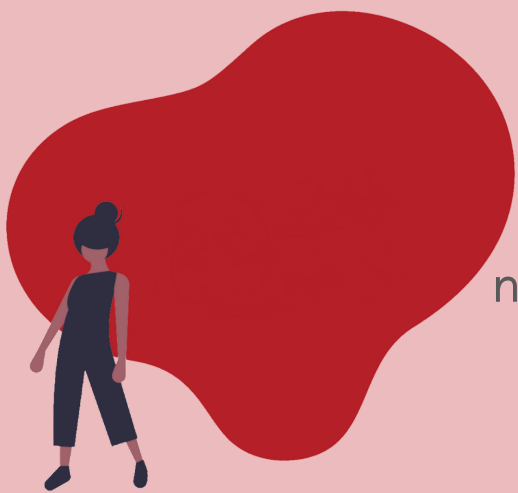

COMMUNITY

The Connector Program helps leaders in their industry connect on a deeper, more personal, and more meaningful level to their sector and community as a whole.

FUN AND ENGAGING

Connecting with, and learning from, new and young professionals can be a lot of fun, and a chance to learn new things and understand issues from different perspectives

OPENING DOORS

Being a Connector means being the missing link for someone, the person who is able to open a door to a new opportunity the Connectee might not have otherwise had.

INCLUSIVE AND WELCOMING

By referring Connectees to colleagues, contacts, and friends, Connectors help them set down roots and stay in the community. This makes the community more diverse, inclusive and welcoming.
